

5th Grade Math Standards

First Nine Weeks Checklist

Name:

Key:

0 – Has not been introduced or assessed

1 – Progressing / Not yet mastered

2 – Mastered

****Mastery = 80% proficiency in listed skill**

Standard	0	1	2
Read and write multi-digit whole numbers standard form			
Read and write multi-digit whole numbers word form			
Read and write multi-digit whole numbers using expanded form			
Compare two multi-digit whole numbers using $<$, $>$, $=$			
Use place value to round to the nearest 10			
Use place value to round to the nearest 100			
Use place value to round to the nearest 1,000			

Use place value to round to the nearest 10,000			
Use place value to round to the nearest 100,000			
Use place value to round to the nearest 1,000,000			
Read and write multi-digit decimals in standard form			
Read and write multi-digit decimals in word form			
Read and write multi-digit decimals in expanded form			
Compare multi-digit decimals using $<$, $>$, and $=$			
10 times as much with whole numbers			
Order of operation			
Prime factors and factorization			
Patterns with zero			
Exponents of ten			
Multiply with powers of 10			
Divide with powers of 10			
Estimate products			
Divide with Two-digit dividends			
Divide with three-digit dividends			
Divide with four-digit dividends			
Divide with two-digit divisor			
Multiply one and two digit numbers			
Use and recognize the property of distributive			
Solve multi-Step word problems			

Rounding decimals			
Rounding whole numbers			

Additional Notes:
