# 5th Grade Math Standards Second Nine Weeks Checklist 

Name:

## Key:

$\mathbf{0}$ - Has not been introduced or assessed
1 - Progressing / Not yet mastered
2 - Mastered / with help
3 -Mastered without any help
** Mastery $=80 \%$ proficiency in listed skill

| Standard | 0 | 1 | 2 |
| :--- | :--- | :--- | :--- |
| Division patterns (10,100,1000) mentally |  |  |  |
| Estimate quotients using rounding |  |  |  |
| Distributive property with partial <br> quotients |  |  |  |
| Quotients with zero |  |  |  |
| Divide three and four digit dividends by <br> one digit number |  |  |  |
| Place value in the quotient |  |  |  |
| Interpret the remainder |  |  |  |

| Problem solving: missing information |  |  |  |
| :--- | :--- | :--- | :--- |
| Rounding decimals |  |  |  |
| Estimate sums and differences with <br> decimals |  |  |  |
| Add decimals |  |  |  |
| Subtract decimals |  |  |  |
| Multiply decimals with properties |  |  |  |
| Divide decimals with estimating quotients |  |  |  |
| Divide decimals |  |  |  |
| Divide decimals with powers of 10 |  |  |  |
| Numerical expressions |  |  |  |
| Writing numerical expressions |  |  |  |
| Problem solving: working backwards |  |  |  |
| Plot points |  |  |  |
| Ordered pairs |  |  |  |
| Graph patterns( coordinate plane) |  |  |  |
|  |  |  |  |
| Divide with three-digit dividends |  |  |  |
| Divide with four-digit dividends |  |  |  |
| Divide two-digit divisor |  |  |  |
|  |  |  |  |
|  |  |  |  |

## Additional Notes:
